

This publication is prepared by TriCore Reference Laboratories to notify clients about updates to TriCore's test menu, including new tests, inactivated tests, and test changes which will affect your interface to TriCore. You may need to update your system's test compendium to match TriCore's coding. Failures may occur for orders and/or results if changes are not made. For additional information contact Virginia Nymeyer, virginia.nymeyer@tricore.org or 505-938-8894, or your vendor contact.
