

NEW REFERENCE RANGES

ERYTHROCYTE SEDIMENTATION RATE (ESR)

Effective September 29, 2021, TriCore transitioned to a new methodology for erythrocyte sedimentation rate (ESR) testing. This provides greater efficiencies and improved turnaround time for ESR resulting.

Please note reference range changes.

AGE (years)	GENDER	REFERENCE RANGE
0-14	M and F	2-34
15-50	F	2-37
15-50	M	2-28
51-70	F	2-39
51-70	M	2-37
>70	M and F	2-46
