CONTACT US

At TriCore, our goal is to help you reach a diagnosis quickly and cost effectively. From choosing the right test to helping with results interpretation, our pathologists and scientists work closely with you to ensure that you receive the full benefit from every gynecologic diagnostic test you order. We use superior technologies with advanced computer screening, giving us an unmatched reputation for in-depth analysis and skill in difficult cases. Our pathologists collaborate with colleagues from other disciplines under our roof, integrating their insights to provide exceptionally complete and useful diagnostic information. With academic affiliations that extend our availability, you are assured of fast, personal service via phone or email. 24/7/365. Call to learn how TriCore can help you with your patient care needs (505.938.8888 / 800.245.3296).

EXPERT DIAGNOSTICIANS

QUICK AND CONVENIENT ACCESS TO 50+ PATHOLOGISTS AND SCIENTISTS

- pathologists
- infectious diseases specialists
- board-certified
- available 24/7/365
- analysis, interpretation, and insights

CERVICAL CANCER SCREENING

PATHOLOGIST-REVIEW OF EACH ABNORMAL PAP

- FDA-approved
- automated screening augments our manual Pap screening
- cytotechnologists screen every slide
- pathologist reviews each abnormal Pap

SEXUALLY TRANSMITTED INFECTIONS

EARLY DETECTION

Untreated sexually transmitted infections can lead to other conditions, including pelvic inflammatory disease, cervical cancer, ectopic pregnancy, and infertility. Because the presence of HPV, GC/Chlamydia, bacterial vaginosis or Trichomonas may be linked to chronic reproductive problems, these tests are valuable in workups of patients with reproductive issues.
