COMMITTED DIAGNOSTICIANS

TriCore's department of dermatopathology is the only team of fellowship-trained dermatopathologists in the state of New Mexico. All specimens are given the highest degree of care and scrutiny to provide physicians and patients with accurate and timely diagnostic information. Both members of our team are board certified in dermatopathology, focusing exclusively on dermatology cases, and are available to consult with you when questions arise. Team members collaborate closely, sharing their expertise and insights during daily consensus conferences. In addition, they consult with TriCore's team of nationally recognized laboratory scientists, and clinical and anatomic pathologists.

COMPREHENSIVE TESTING

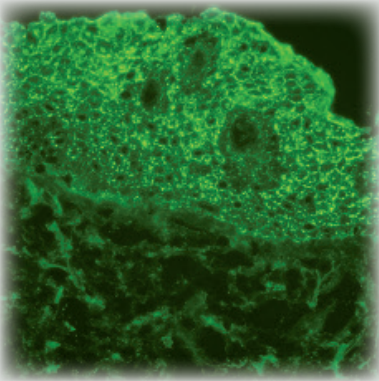

With an extensive array of testing services at their disposal, TriCore's dermatopathologists provide in-depth, targeted analysis of even your most difficult cases.

- Gross and microscopic examination of skin, mucosa, hair, and nails
- Slow Mohs permanent section technique
- Extensive immunohistochemistry and special stains menu
- Molecular testing including T-cell and B-cell gene rearrangement
- Direct immunofluorescence testing for immunobullous disorders, connective tissue diseases, and vasculitis
- Flow cytometry
- Frozen sections
- Microbiology correlation for infectious diseases
- Consultation service on slides prepared at outside institutions
- Technical slide preparation

When appropriate, TriCore dermatopathologists consult with TriCore colleagues from other pathology disciplines to gain additional insight into your case.

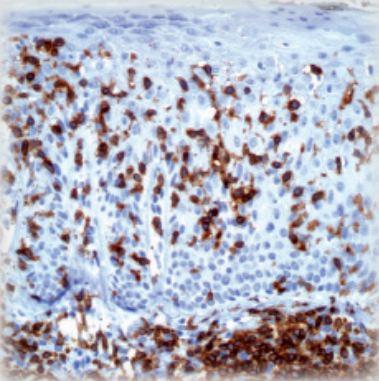

CONTACT US

DETAILED

TriCore's dermatopathologists combine medical expertise and cutting-edge clinical methodologies with compassion to provide every patient specimen with the most thorough diagnostic interpretation possible.

LOCAL

TriCore's board certified dermatopathologists bring skills and experience from across the country to New Mexico. Their extensive training backgrounds blend to provide great depth of knowledge. Combined with TriCore's extensive test menu and collaboration with 50+ in-house pathologists, scientists and clinicians, New Mexico's healthcare providers and patients receive the highest possible quality of personalized care and laboratory information.

SERVICE FOCUSED

TriCore offers prompt turnaround times with STAT service for emergency cases. Easy access to TriCore's dermatopathologists and their colleagues provide the best possible analysis, interpretation, and patient care.

ABOUT TRICORE

TriCore Reference Laboratories is an independent, not-for-profit clinical reference laboratory founded and headquartered in Albuquerque, NM, co-sponsored by Presbyterian Healthcare Services and University of New Mexico Health Sciences Center. TriCore provides over 2,900 full-service, state-of-the-art laboratory tests to healthcare professionals and their patients. TriCore also provides analytics and research services, supporting healthcare and scientific organizations worldwide. For more information, visit [TriCore.org](https://www.tricore.org).
